NRC. Advisory Support to Government for Strengthening the Resilience of Essential Services and Infrastructure

KYIV CITY, June 11, 2026 — National Reserve & Securities Corporation (NRC.) will provide advisory support to Ukraine government in development of investment programmes aimed at strengthening the resilience of essential services and infrastructure. The cooperation will help the Ukraine authorities identify investment priorities, prepare projects and develop structured approaches to support resilient, sustainable and reliable infrastructure systems.

The initiative is linked to Ukraine's efforts to strengthen the resilience of entities providing essential services, in line with the objectives of the European Critical Entities Resilience (CER) framework. The advisory support will assist in translating these objectives into practical investment planning and project preparation.

Through NRC. Advisory, the Corporation will provide technical expertise to support the identification and prioritisation of resilience-enhancing measures, the preparation of investment pipelines and the development of implementation approaches aligned with national priorities and European standards. The support will initially focus on the priority sectors of Energy and Water, where resilience and continuity of critical infrastructure and services are essential for citizens, businesses and the wider economy.

The NRC. will work closely with the Ministry of Environment and Energy Ministry and relevant stakeholders to assess investment needs, support project preparation and explore appropriate financing solutions for future investments.

The advisory support will also contribute to strengthening institutional capacity, knowledge exchange and long-term investment planning, helping Ukraine develop resilient infrastructure solutions that respond to future challenges.

NRC. advisory support and capacities aimed at strengthening the resilience of essential services and infrastructure:

- Support for project preparation, investment planning and exploration of financing solutions to enable sustainable and resilient infrastructure development
- Development of a comprehensive investment framework to strengthen the resilience of essential services and infrastructure
- Identification, prioritisation and preparation of resilience-enhancing investment projects across priority sectors, starting with Energy and Water.

About NRC.

National Reserve & Securities Corporation (NRC.) is one of the regional's largest banking and financial services organizations. Our global businesses serve more than 1000 customers worldwide through a network that covers 30 countries and territories.

Our customers range from small businesses and investors to some of the world's biggest companies, governments and international organizations. We aim to connect them to opportunities and help them to achieve their ambitions.

The products and services we offer vary widely according to customers' needs. We offer businesses loans to invest in growth, and products such as foreign exchange and trade financing that enable them to expand internationally. And for large Ukrainian companies and organizations operating across borders, we offer tailored advice on decisions such as financing major projects, issuing debt or making acquisitions.
